

EJ-5 BUSINESS CONFERENCE SYSTEM

EJ-5T

EJ-5R

Fabulous sound quality along with multi functions. With only 80g and built-in speakers and microphone, **okayo** EJ-5 series provides secure business meeting environment. Built-in lithium battery can be use up to 20 hours but only require 4 hours maximum for fully charge. The chargers of EJ-5 built-in with channel synchronization function which enable setting all devices into same channel in one click.

EJ-5 OVERALL SYSTEM

Oscillation type	PLL synthesized control OSC
Carrier frequency range	640 MHz ~ 865 MHz
Operating temperature	-10 °C ~ 50 °C
Power requirements	Li-ion 3.7V 1200mAh battery
Channels	16 or 96
Frequency response	Aux 70 Hz ~ 15 kHz Ear. 100 Hz ~ 12 kHz
Dynamic range	> 80 dB
T.H.D.	< 1 %
Operating range	50 M
Dimensions (D x W x H)	Tx: 33 x 52 x 88 (mm) / Rx: 37 x 52 x 99 (mm)
Weight	Tx: 80 g / Rx: 83 g

TRANSMITTER: EJ-5T

RF output power	1 mW / 10 mW, subject to local rules
Spurious emission	< 250 nW
Microphone connector	3.5 mm
Modulation level	15 kHz
Battery life (Lithium)	15 hours typical

RECEIVER: EJ-5R

Receiving mode	PLL single-channel
RF spurious rejection	> 55 dB
IMD rejection	> 55 dB
Double intermediate	130.06 MHz / 10.7 MHz
Audio level	2 V
AUX output	300 mV
Earphone connector	3.5 mm
Battery life (Lithium)	20 hours typical
